Prehistory Research Foundation Malta No. 111

Framework topic: "Lost Atlantis"

In partnership with the University of Quantum Dynamics Foundation, Department of pre-History & Archeology www.ugd-edu.eu I will continue my research in Malta in May 2013. In order to be able to seriously undertake my research I seek a generous Sponsor who has an innate desire to know something about the Atlantis civilization, his original roots, and those of his family in that time.

In order to continue my research I urgently need financial assistance to purchase or alternatively a donation of a 39ft sailing boat. (Bavaria 44)!!

The Maltadiscovery Prehistory Research Foundation Malta No. 111 www.maltadiscovery.org is a Non-Profit Organization and therefore a donation can be deductible from one's income revenue declaration! **This provision could now be of interest in Malta as an EU member!!**

The use of a sailing yacht of approximately 13 Meter/39ft length would enable the research expedition team to permanently stay in the waters around the islands of Gozo, Comino and Malta. This would enable us to carry out professional selective sea bed examination by means of a sonar echo-sounder ground radar which would give us 3D animations of ancient underwater structures. Our discoveries would then be subsequently confirmed by a well-coordinated diving exploration team.

The **aim** of my research is **not** the well-known quest for the legendary Atlantis. I have already identified this with the whole Mediterranean basin together with the city foundations at the foot hills of the corresponding 3 Mount pattern within the 10 Mountain ranges that surrounds the Mediterranean basin.

Instead, the focus of my attention is rather the Cultural Center of this legendary ice age civilization in the middle of this mysterious basin, which was known by the Celt as... "the kettles"! In fact I have already discovered that a certain part of the Maltese archipelago is the smaller mirror image of the entire Mediterranean basin; consequently, even the 10 settlement sites, namely the cities of Pa.tha-i-da.na \approx Poseidon are similarly mirrored on a smaller scale but as a counterpart! Thus I can claim to have historical unambiguous proof ... that 10 city settlements are actually to be found on the sea bed in the waters around Maltese islands, settlements which altogether had once formed the center of Atlantis during the ice age. Literary references for this exist since antiquity! In these writings a certain particular part of the archipelago is called "Dekapolis" which means "10 Cities". In my opinion these references correspond directly to the center of Atlantis which is the location we are looking for!

In the yacht marinas there are many seaworthy sailing yachts berthed but unused! I forward my appeal to you who are privileged with the means, to you who wants satisfy your yearning for knowledge about the history of man's origins, about your own ancestry and whose descendant

The Cornerstone \approx Matrix of Atlantis

you are... I appeal to you kindly make a generous donation of any kind to fund my project and become a part of it!

I kindly ask for this letter to be forwarded to friends and contacts who may be interested in the work that my foundation is doing!

If you are a potential sponsor We assure you of our complete discretion; please do not hesitate to contact us... mail to:

dhz@maltadiscovery.org or prof.h.zeitlmair@uqd-edu.eu

I thank you for your attention and I would be glad to hear from you!

With kind regards,

Prof. Dr. Hubert Zeitlmair h.c.D.
