MESSAGE FROM GRAND MASTER

No one of the logic and fear based humans can think about a paradigm change; but that is what is happening. Be very skeptical of everything you see and hear, but keep an open mind; Keep your aware and conscious vibrations in the first tenant "Be aware that major announcements will be coming forward in the coming weeks"; not all are realistic, and will challenge your concepts of reality, so skepticism, can be useful, but moderate it with feeling, first impressions will probably be correct, do not over think them or intellectualize them based on cultural norms, and most of all do not go to fear, keep vibes high, if you see a monster, hear a monster, or feel a monster, say hello and send it love and light, see it filled with white, blue and violet light, it will either disappear or join your quest; Love, Respect and Truth are your guides here. Know that they are your potential allies and never were your enemies, only corporate governments have enemies, natural people do not, they have only friends they have not met, or they have people they know and disagree on a few non-consequential points of philosophy, On the overall paradigm change, they may need your help and your conscious awareness and your databank for their continued survival; see them all as friends and as people walking a path without light within, share your light, intent is everything, consciousness and intent make reality. Fear defeats your reality and lets them mold it for you; so give them light and take back your personal power, be responsible for your own actions and thoughts, so you will not need their governance, oversight, or false security, You do not need a government, a master, or security force as long as you do not display or dwell on thoughts that you wish not to happen, or you will bring them to your doorstep; See only Perfection and Harmony in your life, dwell on how to share, how to help, how to heal and as Sovereign White Knights, you shall lead the pack as individuals, not as a group. I AM here always as a guide, not your oversight or master. Go in peace and grace and walk in silence and by conscious intent to have peace and prosperity for all.

Keep this in your mind, your heart, and your spirit; however your customs and norms define that.

Knights in Action

In each issue, this section will showcase all the Great Work that our White Knights, UQD Professors or “Friends of the White Knights” are doing worldwide in their own communities.

This month we are highlighting the work of one of our own Knights, Sir Rolf Schuster (Canada).

Rolf and several German Engineers have devised a way to use bamboo in a very creative way. They created a multifunctional construction panel which can be used as: a temporary shelter, shed or affordable housing which can be used in any region on earth. To find out more about Rolf's project check out the following link <http://www.uqd-edu.eu/pages/RolfSchuster/docs/Rolf-Bamboo.pdf>

Highlighting the Works of our Knight Commander and UQD Professor (Academy of Engineering) Brennan Purtzer.

Currently doing his Masters thesis field work out in Micronesia, Brennan is studying and presenting to the islanders the viability of a 3D printing operation that can hopefully address many of their development issues. With the necessary investment, he'll have a DMLS machine built and ready to bring into service. You might say he is an Ambassador of 3D printing to the people of Pohnpei, meaning "upon (pohn) a stone altar (pei)", and Micronesia, parts of mythical Lemuria/Mu. His idea is that this technology turns classical disadvantages of isolation into opportunities to serve their own interests. He has developed a profitable business model by focusing on three primary intervention areas.

Quote of the Day!

Do you have a quote or poem you wish to share?

If so please send it to Lady Suzanne at suzanne.edwards@uqd-edu.eu for inclusion next month's issue.

"Yes, we morph daily, and that is a good thing--it keeps us from stagnating. Time itself is a measure of change, and sometimes we chase time, and other times it chases us. Sometimes we change spiritually, emotionally and mentally and the external expression remains the same for the most part. Other times we change externally, and those changes percolate inwards as an expression of change. Sometimes it is an internal decision, and other times through accident, and we cope with that change."

Sir William "Bill" Donavan

"Through Russia comes the hope of the world. Not in respect to what is sometimes termed Communism or Bolshevism — no! But freedom — freedom! That each man will live for his fellow man. The principle has been born there. It will take years for it to be crystallized; yet out of Russia comes again the hope of the world."

Edgar Cayce, October 1935

Poem of the Day!

Money: Written by Lady Suzanne Edwards

Created to cause separation
Among all of humanity
An unequal distribution
One of greed, vanity and insanity

Humans, being the only inhabitants
That pays to live on planet Earth
A silly paper that causes intransigence
Yet we give it so much worth

Many will chase it, until exhaustion sets in
But few will realize, until they fall in the pit of deadly sin
See through the illusion while there is still time
Live in cooperation like a bountiful bee-hive

Money is equated with success
Yet look around you
What a big mess!
One might call it a failed debut, if you are able to see through

When you acquire all your riches
Take a look around
For many lie hungry in the ditches
Several sleeping on the ground

When you close your eyes for the last time
You will view your life from beginning to end
Live not in selfishness, live not in crime
Do your best not to offend, nor condescend

I long for the day
That money will go away
That equality is here to stay
For this I solemnly pray

But in the meantime
If you do have money
Like bee's in springtime
Do share all your honey

It is in sharing, and cooperation
That you experience the true riches
Through donation and emancipation
This new way of living truly enriches

Sharing and caring
Is the new way
It is through this restoring
That the old paradigm will fade away

Be part of the CHANGE, and you will see
You do not have to be rich
To help create the JUBILEE
Just be part of the knitting stitch

And soon you will find, we will weave a new love paradigm
In which all life will thrive, it is due time!
No more need to merely survive or deprive
Time is NOW to THRIVE
