MESSAGE FROM GRAND MASTER

As Sir Sagal put it, Change is good, we evolve with change, but change should be for the best of all concerned, the Family of Man, not just Knights. Not all Knighthoods feel that way, because they would rather fight to keep it in the old violent paradigm they are accustomed to, rather than change, evolve and flower into the higher good. We and our allies like the “Kota” “Ubuntu Societies” “Thrive” “New Earth Nation” and others are charging ahead in spirit and in works, to cut the path to Individual Sovereignty and true freedom. Many will not follow at this time, not because they cannot see the light, it is that the tunnel entrance is hidden in lies and propaganda, socio-economic hurdles and intentional political saber rattling. Intent and Aware Consciousness is all it takes to calm the situation to a low noise level. So that stress us relieved and we can calmly move forward without obstacles, most of which we put there ourselves.

All life is sacred, even those that in other times were considered enemies by political insanity that has plagued earth for long enough. We have modalities that can eliminate the non-changeable entities without loss of life, theirs or ours.

MESSAGE FROM PATRON

Apart from Message from Grand Master, this month Prince Patrick feels the need share some Message of Great Importance.

As many of you may be aware, the last few years a group of our fellow HU-MANS has been singled out and put in ‘bad daylight’. It’s a Hydra with many heads, be it El Qaida, Boko Haram, etc etc, in all cases the intent is give a certain (religious) group a bad name, in this case we talk about Muslims. The reason for this is the ‘good old’ Divide and Conquer, an ancient strategy of Imperialism.

If there is one group that has helped us survive, after the Money Changers had taken our Castle/Embassy, it is them, our hard working Muslim Brothers. You might say ‘I’ am just lucky, for know them long time, but still, would YOU have offered us a place to stay and daily meal? Some groups still know about Extended Family, which is based on Service To Others, where the many are still stuck in Service To Self.

Hard working?! YES, and mostly for little money, preferably self employed, many in restaurants. Before saying they can’t even speak your language correctly, reading and wring even worse. In-deed, this is correct, but they do follow language courses. For some reason these courses are not in a way for them to learn easily, again, because of their many hours work they have little time. So, what about ‘us’ stretching our hands, assisting in short inter-active ‘lessons’, 1on1, especially for writing or helping with ‘official’ documents?!

It’s too easy point at others, together is the way to go, entering Future (is Now), for this our Magical Box, our ‘world’, is for ALL to Enjoy ...

UQD FOUNDATION NEWS

UQD Foundation Campaign

As White Knights, we are NOT required pay Entrance Fees or monthly dues.

As White Knights we believe knowledge should be shared and not hidden. We do not buy titles but spiritually earn them by our own merits. That being said, I wish invite each and every one of you to commit to donate some money or currency (each month) to the UQD Foundation. If each of us committed to this, by the end of the year we would have achieved a small reserve to either assist a fellow Knight in need or help fund Research or Projects.

Most of us do not think twice about purchasing a coffee. If we, as White Knights, do not believe in contributing to our own cause, how can we expect others to?

I have donated my 1 EU to UQD this month to kick off this campaign! Will you join me?

For Full Transparency have a look at our Financial Reports. Please do your part and join me in pledging today! “Free Will” of course applies.

Thank you all in advance.

Lady Suzanne Edwards

This month some more of our UQD Professor Hubert Zeitlmair. Hubert wishes to share a different viewpoint of the traditional Christian Easter Story. Once you read this piece, you will never look at Easter in the same light again. Please see www.uqd.edu.eu/docs/Easter%20event%202015.pdf

Did you know Hubert has written a book as well?

Knights in Action

In each issue, this section will showcase all the Great Work that our White Knights, UQD Professors or "Friends of the White Knights" are doing worldwide in their own communities.

As an update to the previous issue, Sir William Donovan had this to say: When I did the book "Glimpses of Epiphany", I toned it down quite a bit. I minimized the editorializing and the sarcasm, but a few things tended to sneak in anyway. I had a few chapters in a section I began called "The Big Picture", and realized it was better in another book, as this one was difficult to get published anyway. The elephant in the room that no one wants to acknowledge is the relationship between politics and science---really all sciences. Politics is the polar opposite from science, or truth seeking in general. Politics tends to corrupt and compromise, and science, philosophy and truth seeking look for the absolute reality BEHIND what appears as reality. When a civilization enters the slippery slope, it combines politics with that pure and innocent discipline corrupting it--and that is what we see today. Can we pull it back from the brink? Perhaps, and perhaps not. But there were always cycles of civilization, and when it declines small groups gather together to advance and preserve what is there.

We as Knights are one of those groups.

Others are more secretive, and cloister themselves away from the eyes of the world in fear that they may be either targeted or corrupted. It takes a great deal of courage to "be out there" and maintain your integrity--a lot of strength as well. To take on a task such as this says a lot about who or what we are. Sometimes it seems insurmountable and overwhelming. But in climbing a mountain, you look at things one step at a time, and look back at the travails after the summit is reached, realizing the effort was worth it. Such as it is with life as well. A good friend of mine who has since passed on said, "You think these problems are impossible, but ask yourself--will it matter in a hundred years? If not then it really doesn't matter, does it? Time changes perspective." That was RW Moore, who published a newspaper called "The Truth", and put some articles in there which were very unpopular at first, but once again in retrospect extremely prophetic. He looked a lot like the Grand Master, and dressed as Santa Claus for the family during holidays.

So the moral of the story is this: Live your Truth in Honesty and Transparency, while being sensitive to other's feelings as well. You might think you're carrying a feather when the other one sees a sledgehammer!

Highlighting the Works of Hadji Maher, Plenipotentiary of Prince Patrick, from the Land of Khem.

Since last year have been asked to assist in making possible operations of children that can't be helped in Egypt, such as for brain surgery in the Hannover *International Neuroscience Institute* or orthopedic in The Hague's *Juliana Children's Hospital*. The parents and child may use the opportunity to visit a Zoo or other places, as to not continuously think of being dis-eased. The amount of pleasure this brings can't be described. Let us know if you too wish assist in creating happy faces.

Maher is too modest to be contacted directly, so please send any comments to patrick@uqd-edu.eu

Relativity

Written by Sir William Donavan

There was a young lady named Bright
Whose speed was far faster than light;
She set out one day
In a relative way
And returned on the previous night.

A Dedication to St. Germain

Written by Lady Suzanne Edwards

Your gentle guidance

You never push

Planting seeds in silence

Near the violet flamed bush

Freedom and emancipation

Is what you hold dear

No divisions, no Nations

For humanity to see clear

Humility, transparency, accountability

Unconditional love for all

Creating anew with tranquility and stability

Making the old paradigm fall

Assisting humanity with the current experiment

Many miss it due to your eccentric ways

But those lucky enough will embrace it as relevant

And their souls will emit a violet blaze

You teach forgiveness so hate will not fester

You say to view life through the eyes of a jester

You teach us to observe, not to attach to events

And to be Sovereign and not chase cents

You love your “cuppers” and your “click click”

You teach that only if you wish to, you will be sick

But most of all you wish us to know

That WE are ALL ONE yet part of the one-man show

You remind us that the jubilee is now

To have fun and to take a bow

Your hope is for a sense of community

And for humanity to move from the illusion of separatism, to one of unity

You remind us that no one exists but ourselves

That our bodies are mere shells

That we create “guna’s” that each hold a lesson to see

In our mirror that reflects back to thee and holds much mystery

Dedicated to St Germain, my greatest Teacher. I am blessed.
